	American Association for Laboratory Accreditation	
	F228 – A2LA GEAE S400 Laboratory Consent Agreement	
	Document Revised: December 15, 2011	
		Page 1 of 2

Through a cooperative agreement with GE Aviation, A2LA is recognized by GE Aviation to provide accreditation for certified materials testing laboratories (CMTLs) pursuing accreditation to meet the requirements of GE Aviation S400 section 3.1.

This cooperative agreement requires that A2LA communicate with GE Aviation regarding the accreditation status of its accredited CMTLs to include:

- Corresponding by email and phone with GE Aviation regarding assessment preparation, scheduling and assessor assignment for each CMTL facility and
- Providing GE Aviation with copies of assessment documentation related to GEAE S-400 testing including the assessment report, deficiency report, draft Scope of Accreditation and copies of test result reports for all GE Auditor Test Kits used during the assessments, if any.

Therefore, in order to participate in the A2LA GE Aviation S400 Accreditation Program, and prior to undergoing an on-site assessment, we require your consent to permit A2LA to provide the information listed above to GE Aviation.

Please sign and return this document to A2LA headquarters via:

Mail: A2LA, 5301 Buckeystown Pike, Suite 350, Frederick, MD 21704.

Fax: 301-662-2974

Email: Directly to your A2LA Accreditation Officer (AcO), or to info@A2LA.org if you do not know your AcO's email address.
