FOR IMMEDIATE RELEASE:

A2LA Offers Internal Auditing Class in Detroit/Livonia, MI – September 24-25, 2012

June 18, 2012, Frederick, MD – A2LA’s Internal Auditing class will be offered in Detroit/Livonia, MI on September 24-25, 2012. Over the course of two days, attendees will learn internationally recognized approaches to conducting effective internal audits as well as ways to motivate others to participate. The techniques learned promote the involvement of laboratory personnel, allowing their system to work harder for them, than they are working for it. The course includes easy-to-implement methods for continual improvement and preparing for external assessments. Topics covered will include how to plan and conduct internal audits within laboratories, auditing principles and techniques, and required skills. There will also be an opportunity to speak with one of the authors of the standard who can explain exactly what is expected. This course is targeted to all laboratory staff members who participate in the operation of the laboratory management system.

The course will be held at the Marriott Detroit Livonia. The cost of the course is $745.00 for A2LA members and $795.00 for non-members. To view a syllabus for the course and to register, please visit http://www.a2la.org/training/intaudit.cfm?private=no.

ABOUT A2LA:

The American Association for Laboratory Accreditation (A2LA) is a nonprofit, non-governmental, public service, membership society. A2LA provides comprehensive services in laboratory accreditation and laboratory-related training. Services are available to any type of organization, be it private or government. Laboratory accreditation is based on internationally accepted criteria for competence (ISO/IEC 17025:2005). A2LA also offers programs for accreditation of inspection bodies, proficiency testing providers, reference material producers and product certification bodies.
